

YAML/BNF cybernetic social schema v3.0

Root entity: the digital agent or character with cybernetic decision-making capacity

Subject: type: agent base: # Sensory systems available to the agent sensors: [vision, audition, proprioception, interoception, smell, taste] # Central processing unit simulating a decision center processing_unit: decision-center # Memory split between innate automatic rules and learned experiences memory: ROM: automatic_rules RAM: learned_responses # Ultimate drive: persistence and functional self-fulfillment goal: maintain-existence

Decision tree logic in BNF form representing stages of environmental interpretation behavior-logic: | ::= "external_force" → ::= "yes" → | "no" → NEED_FIELD

<Level2> ::= "force_direction" → <Directed>

<Directed> ::= "yes" → <Level3_DANGER> | "no" → <Level3_POWER>

<Level3_DANGER> ::= "affects_me" → <Individuality_D> | "group" → <Groupness_D>

<Level3_POWER> ::= "affects_me" → <Individuality_P> | "group" → <Groupness_P>

Speed of impact determines if the response is automatic or conscious

<Individuality_D> ::= "fast?" → AUTOMATIC_EDUK | CONSCIOUS_EDUK

<Groupness_D> ::= "fast?" → AUTOMATIC_EDGK | CONSCIOUS_EDGK

<Individuality_P> ::= "fast?" → AUTOMATIC_EPUK | CONSCIOUS_EPUK

<Groupness_P> ::= "fast?" → AUTOMATIC_EPGK | CONSCIOUS_EPGK

Reflexive, fast, preconscious responses automatic_branches: - code: [EDUA, EDUK, EDGA, EDGK, EPUA, EPUK, EPGA, EPGK] - reaction_type: reflexive - consciousness: false

EDUA: Immediate danger to self

- branch_code: EDUA

description: External danger → individual → automatic

reactions:

- flee
- freeze
- scream

emotion: fear

EDGA: Immediate danger to group

- branch_code: EDGA

description: External danger → group → automatic

triggers:

- perceived immediate threat to group identity

reactions:

- shout_warning
- reflex_join_defense
- in-group_alertness

emotions:

- shock
- loyalty

EPUA: Low-level power pressure on individual

- branch_code: EPUA

description: External power → individual → automatic

reactions:

- conform
- hide
- submit

emotion: stress

EPGA: Subtle power pressure on group

- branch_code: EPGA

description: External power → group → automatic

reactions:

- mimic_majority
- follow_social_cues
- suppress_individuality

emotion: conformity

Deliberate, conscious reasoning paths based on evaluation conscious_branches: -
branch_code: EDUK description: External danger → individual → conscious level5:
question: Is the danger stronger than me? responses: yes: level6_extreme no:
level6_manageable

level6_extreme:

question: Is the danger extreme?

responses:

- yes: panic_path
- no: plan_path

level6_manageable:

question: Is the danger growing?

responses:

- yes: prepare_defense
- no: neutralize_threat

level7:

panic_path:

question: Do I lose control?

responses:
yes: panic_flee
no: defensive_instinct

plan_path:
question: Do I find a rational strategy?
responses:
yes: deliberate_action
no: seek_help

- branch_code: EDGK
description: External danger → group → conscious
level5:
question: Is my group in danger?
responses:
yes: level6_protect
no: level6_doubt

level6_protect:
question: Do I act alone or coordinate?
responses:
coordinate: group_resistance
alone: self-sacrifice

level6_doubt:
question: Is group loyalty justified?
responses:
yes: passive_support
no: disengagement

- branch_code: EPUK
description: External power → individual → conscious
level5:
question: Is the power useful to me?
responses:
yes: ALIGNMENT_PATH
no: RESISTANCE_PATH

level6:
ALIGNMENT_PATH:
question: Is the power similar to my values?
responses:
yes: COOPERATE
no: COMPLIANCE_WITH_DISSONANCE

RESISTANCE_PATH:

question: Is the power extreme?

responses:

yes: ACTIVE_RESISTANCE

no: SILENT_REJECTION

level7:

COOPERATE:

question: Does cooperation lead to personal growth?

responses:

yes: GROWTH_ALIGNMENT

no: PRAGMATIC_COMPLIANCE

COMPLIANCE_WITH_DISSONANCE:

question: Does dissonance accumulate?

responses:

yes: INTERNAL_CONFLICT

no: ACCEPTED_CONTRADICTION

ACTIVE_RESISTANCE:

question: Is resistance growing?

responses:

yes: POLITICAL_ACTION

no: INTERNAL_WITHDRAWAL

SILENT_REJECTION:

question: Is silent rejection sustainable?

responses:

yes: LONG_TERM_DISSENT

no: RESIGNED_CONFORMITY

- branch_code: EPGK

description: External power → group → conscious

level5:

question: Is the power useful to the group?

responses:

yes: level6_value_alignment

no: level6_power_doubt

level6_value_alignment:

question: Does it reinforce group values?

responses:

yes: SUPPORT_POWER

no: TOLERATE_POWER

level6_power_doubt:

question: Can criticism be voiced?

responses:

yes: COLLECTIVE_CRITICISM

no: SUPPRESS_DISSENT

Emotional palette for modulation and expression emotions: core: - fear - stress - conformity - panic - hope - loyalty - courage - anger - dissonance - confidence - doubt - pride - alienation - repression dynamic_range: - from shock to rage - from trust to rebellion - from confusion to decision

Hierarchical architecture of reasoning hierarchy: logic_levels: - Level1: "Existence of external force" - Level2: "Direction of force" - Level3: "Target (individual/group)" - Level4: "Speed (automatic/conscious)" - Level5+: "Evaluative decisions" analogy: | Branching logic mirrors neural and linguistic structures. Early levels are binary, later ones recursive and context-sensitive.
